SUMMARY

Seeking an opportunity in a dynamic and growth-oriented organization where I can apply my technical, analytical, programming, and problem-solving skills to contribute to innovative projects and business solutions. Eager to work with technologies related to data science, data analytics, web development, and software development while continuously learning and improving my technical expertise. With strong communication, teamwork, adaptability, and analytical skills, I am committed to delivering high-quality solutions, contributing effectively to the organization, and growing as a versatile technology professional.

TECHNICAL SKILLS

Programming: Python, SQL, JavaScript
Web Technologies: HTML, CSS
Data Analytics: Power BI, Tableau, Excel
Database: MySQL
Tools: Git, VS Code

ACADAMIC PROJECTS AND INTERNSHIP PROJECTS(Kenstack Technologies)

- **AI Healthcare Chatbot** - Developed an AI-powered healthcare chatbot that provides symptom-based guidance and answers medical queries using natural language processing.
- **AI-Powered Email Spam Classification System** - Built a machine learning model to automatically classify emails as spam or legitimate with high accuracy.
- **AI-Based Real-Time Animal Sound Detection System** - Developed an AI system that identifies and classifies animal sounds in real time using audio signal processing and deep learning.
- **Student Attendance Management System** - Designed a web-based attendance management system to automate student attendance tracking and report generation.
- **Dynamic Resource Allocation Management for Distance Education** - Developed an intelligent resource allocation system to efficiently distribute learning resources based on student needs and course demand.
- **EV Range Prediction under Real-World Conditions** - Built a machine learning model to predict electric vehicle driving range using real-world factors such as speed, weather, terrain, and battery status.

WORK EXPERIENCE

Software Developer | Kenstack Technologies
March 2026 – July 2026

- Developed and maintained web applications using PHP, HTML, CSS, JavaScript, and MySQL.
- Designed responsive user interfaces and implemented website functionalities.
- Worked on real-time projects, including **SalusCare Pharma** and **Car_Taxi Booking System**.
- Implemented form submissions and developed features to improve application usability.
- Tested application functionality and resolved issues to ensure smooth performance.

REAL-TIME PROJECT/ KENSTACK TECHNOLOGIES

- **SaluscarePharma :**

  Developed a pharmacy website using PHP, HTML, CSS, and JavaScript to support pharmacy operations and medicine management. Implemented web pages for product information, enquiries, contact management, and other pharmacy-related functionalities.

  Organized the application using reusable PHP files and structured folders for configuration, API, and shared components.

- **Car_Taxi :**

  Developed a car/taxi booking website using HTML, CSS, JavaScript, and PHP. Designed a responsive user interface with interactive car cards and booking-related features. Implemented PHP-based form submission to process booking details and support user interactions.

CERTIFICATIONS & ACHIEVEMENTS

- **Python Programming Internship Completion** – CodeSoft
- **National Science Day** – Paper Presentation (2023)
- **National Webinar** – Trends on Informatics in Business (2023)
- **Introduction to SQL** – Certification (2025)
- **Intercollegiate Meet** – Secured 1st Prize in Code Debugging and Creative Events
- **Data Scientist Internship Completion** - Kenstack
